General Information:

This class will require multiple presentations backed by research from individual students, as well as team presentations. Students will be researching a broad range of business topics, and also utilizing their creativity to create both sample products, and sample companies/corporations. Nearly every aspect of basic business practices will be touched on including, but not limited to: Start-ups, Retail, Corporate, Small Business, Funding, Raising Capital, Money Management, Human Resources, Management, and business structure. This is a time consuming class with a great deal of outside work required, and it is usually a very competitive class environment (much like the business world). This class follows The University of Suwon's required 30% A's, 40% B's, 30% C's grading requirement.
